Plate Washing Machine
HDW-01

Icon function

- Waterproof panel
- Plates are arranged in order
- Antifriction and anticorrosion screw bar
- Filter collect food residues
- Infrared rays sensor
- Automatic washing system
- Ergonomically well-designed framework
- 360 degree flush cleaning
- Safety model
- Cleaning liquid low warning light
- Maintaining warning light

Product introduction

- Automatic washing system enhance washing capacity
- Stainless steel appearance is easy to maintain
- Waterproof panel design
- Stainless steel bar fix plates position
- Endure 80 degree Celsius screw bar
- Inner design

  Multi-direction nozzles

  Antiseptic spiral brush

  Up and down air-dried system
- Safety design prevent accident
- FINISH button system : all workflow finish automatically
- Infrared rays sensor detect full plates level
- Drawer type filter to collect food residues

Specifications

- Model : HDW-01
- Capacity : 1800Piece/per hr
- Dimension : W99/D58/H86(124)cm
- Weight : 170kg
- Power
  T type : 3Ph/220v/60hz
  CE type : 3Ph/380v/50hz
- Power consumption : 900w
- Standard dishes : Ø149~153mm/85~125g
- Cleaning liquid : Detergents
- Hot water systems : External supply
